### Andersen's Sales and Salvage Wins an Eriez® Metal Loss Monitor at 2018 RRF Silent Auction

Left to right: Sarah Willcutts (Andersen's) and Tim Shuttleworth (Eriez)

Erie, PA— [Eriez®](#) announces that [Andersen's Sales and Salvage](#) of Greeley, Colorado, placed the winning bid for a [Metal Loss Monitor \(MLM\)](#) Eriez donated to the [2018 Recycling Research Foundation \(RRF\) Silent Auction](#). The auction was held in conjunction with this year's [Institute of Scrap Recycling Industries \(ISRI\) conference and exposition](#) which took place April 16-18 in Las Vegas, Nevada.

The RRF is a 501(c)(3) not-for-profit organization closely associated with ISRI. As described on the [ISRI website](#), the RRF's mission is to promote the art and science of scrap processing and recycling through research, sponsorships, technical assistance and educational programs for the purpose of advancing the industry.

Eriez President and CEO Tim Shuttleworth explains that the company did not hesitate to donate the [MLM](#) to the 2018 RRF Silent Auction. He says, "Eriez believes wholeheartedly in giving back. Our team is dedicated to making a lasting, positive impact on the communities where we operate and in the industries which we serve. We are proud our donation helps support the RRF and the important work it does for the recycling industry." He adds, "We were thrilled to learn that Andersen's, an existing Eriez customer and leader in the field, placed the generous winning bid for the MLM."

Metal Loss Monitor

The [Eriez Metal Loss Monitor](#) continuously scans a scrap yard's residue stream for valuable metal that escaped their process and is headed for landfill disposal. Positioned either upstream or downstream of the hand picking station, the MLM sends an alert when it detects a spike in metal count, assisting operators in diagnosing and locating process breakdowns. To learn more about the MLM and the full Eriez SMART™ (System Monitoring & Reporting Technology) product line, visit <http://erieznews.com/nr456>.

[Andersen's Sales and Salvage](#) is a family-owned business in operation since 1959. With its first shredder installation in 1995, Andersen's began the transition to a full-service scrap yard and a self-service auto parts yard. The current shredder, commissioned in 2008, brought Andersen's into the premier auto-shredding industry, with complete ferrous and nonferrous production lines. To learn more, visit [www.andersensales.com/](http://www.andersensales.com/).

Eriez is recognized as world authority in separation technologies. The company's magnetic lift and separation, metal detection, fluid filtration, flotation, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, plastics, rubber, recycling, food, mining, aggregate and textile industries. Eriez manufactures and markets these products through 12 international facilities located on six continents. For more information, call (814) 835-6000. For online users, visit [www.eriez.com](http://www.eriez.com) or send email to [eriez@eriez.com](mailto:eriez@eriez.com). Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
